

# IP 15 iSwing

**Inclusive Play**

## Moving

This unit has been designed for those who cannot easily move out of their wheelchair. It is an essential part of our range as everyone has the right to enjoy the freeing sensation that swinging brings.

The rope pull included within the design allows those with upper body mobility to be able to swing themselves independently.

Please note the dimensions of the platform, some wheelchairs may not fit on the iSwing. See install instructions for information on optional locking system.
